Thousands of Happy Housewives in WESTERN CANADA

are helping their husbands to prosper—are glad they encouraged them to go where they could make a home of their own—save paying rent and reduce cost of living—where they could reach prosperity and independence by buying on easy terms.

Fertile Land at \$15 to \$30 an Acre

—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. With such crops come prosperity, independence, good homes, and all the comforts and conveniences which make for happy living.

Farm Gardens—Poultry—Dairying

are sources of income second only to grain growing and stock raising. Good climate, good neighbors, churches, schools, rural telephone, etc., give you the opportunities of a new land with the conveniences of old settled districts.

Terrible Tortures From Itching Skin Diseases

No Sure Relief Until the Cause Is Removed.

When the blood becomes infected with millions of tiny disease germs that attack the skin, then the fiery irritation and intense itching will remain with you until these germs are removed from the blood.

Genuine relief, therefore, can only be expected from a treatment that goes right to the seat of the

trouble, and strikes at its cause. Such a remedy is S. S. S., the reliable old blood purifier that kills the germs of disease, and sends a new supply of rich red blood coursing through the veins.

S. S. S. has been used successfully in some of the worst cases of eczema and other skin disorders.

LEAVES HIS BED TO FIGHT GANG

Detective Routs Four Mexicans Who Try to Assassinate Him.

WIFE LOADS HIS GUN

Attack Is Sequel to War on Mexican Crooks at Pueblo, Colo.—Officer Kills Seven in Twenty Years.

Pueblo, Colo.—When four Mexicans came to his house to assassinate him, as the police believe, at 1:20 o'clock in the morning, City Detective Charles Baty, 704 West Fourth street, shot and killed Salvador Parea, twenty-eight, and put the other three to flight.

Baty arose from a sick bed to meet the Mexicans after they had intercepted his son with drawn pistols in front of the house. They allowed young Baty to proceed into the house and he aroused his father. Mr. Baty, partially clad, went to the front door and opened it. As he did so six bullets, fired in rapid succession, imbedded themselves in the framework of the door.

Baty returned the fire and emptied his revolver into the crowd, shooting from the open doorway. Parea dropped dead and the three others ran.

Meanwhile Mrs. Baty had arisen, loaded two more revolvers and handed them to her husband, who ran into the street and fired after the retreating trio.

This is the seventh Mexican whom Baty has killed in his 20 years on the police force, during which time he has handled practically all important police cases among the Mexican population.

Plan to Kill Him Formed.

On January 14 Baty went into a darkened room in the Mexican district to make an arrest, while three other detectives waited outside. The door snapped shut with a spring lock and

the Mexican inside started firing. While the other detectives battered the door, Baty and the Mexican fought in a room lighted only by flashes from their guns. Finally the door opened and Baty walked out un-injured. The Mexican was found dead.

HALF-POUND BABY WILL LIVE

Weights Nineteen Ounces Now—To Be World's Most Beautiful Baby, Claim.

New York.—Jeanne Ousset, champion New York lightweight baby, is "perfectly healthy and will be the most beautiful baby in the world," despite the fact that, when born, she weighed only half a pound.

Jeanne, who is the daughter of Mr. and Mrs. Louis Ousset of 229 East Thirty-fifth street, is now six weeks old and weighs one pound and three ounces.

"When she was born all the doctors said that she could not possibly live," said Miss Louise Benard, the nurse. "But she is fooling them all. Her health is perfect and her daily development is a thing beautiful to see. She will not remain small."

Both Mrs. Ousset and Miss Benard are in constant attendance to the tiny mite of humanity, whose weight is just equal to that of the doll with which she is amused.

LIVED ON HARDWARE DIET

Shellshock Victim Found to Have 666 Pieces of Foreign Substance in His Stomach.

Danville, N. Y.—That a shellshock patient in the United States hospital here, in fits of delirium swallowed a varied hardware diet almost beyond credulity, was revealed by an operation on the man's stomach.

When Doctor Driesbach, the head surgeon, opened up the patient's stomach he found 30 rolls of tin the size of a man's little finger, four toothbrush handles, four wooden tongue depressors, several nails, many buttons, buckles, needles and sticks. In all, there were 666 pieces of foreign substance.

Children Cry For

Fletcher's
CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.
